

# Craft Soda Handmade From Honey & Botanicals

Green Bee All Natural Soda was founded in 2010 by Christopher Kinkade with the mission of providing a healthier, sustainable alternative to traditional soda while supporting a critical link in our food system, the honey bee. His passion for bees and artisanal approach to beverages has led to a unique line of craft sodas using whole ingredients that are free of refined sugars and never use juice from concentrates, extracts, preservatives or artificial colors.
